

# EB-19-2D : Remote Control setup guide

## Adding a new remote:

Press the button located on the EB-192D Circuit Board once and click the “A” button on the remote. This will add Channel A to the receiver. Press the button on the EB-192D board two times, then press the “B” button on the remote.

## Removing active remotes:

Press the button on the circuit board three times then press “A” on the remote, press the button three times again and press “B”.

## Change Mode:

Jumper on 1-2 - Press to unlock temporarily.  
Jumper on 2-3 - Press once to unlock, press again to lock.  
Remove Jumper: Press “A” to lock, press “B” to unlock.
